Dear Fr. Bill,

Thank you so very much for attending the IEA meeting this past Wednesday at St. George's Church, and for leading us in a better understanding of the Catholic Bishop's Letter on Economic Justice.

Since its inception five years ago the Ironbound Ecumenical Association has attempted to address itself to major issues that effect the quality of life and the environment. We believe that economics is a part of this same recognition for quality on all levels of life. We look forward to future participation with this Letter as more and more people become familiar with it.

Once again, thank you Bill for helping to make this a memorable event for each of us here in Ironbound.

Sincerely,

Jon Dolberg, secretary.
